

eSquirrel

Making textbooks playable

On your smartphone, tablet or online!

The learning portal & quiz app matching your textbooks and learning materials.

Teach interactively and digitally with eSquirrel, evaluate homework and quizzes with one click and directly see the learning progress of your students.

Your teaching and learning companion for the entire school year

Recommended from elementary school (starting at 2nd grade) through high school – up to the high school diploma, for university students and company use.

Create your own digital learning material
FOR FREE!

Features

For teachers

Give homework

Set a deadline for a quest! Just like that students get a notification on their smartphone! You will then see who has done the homework and how well.

Review learning progress

You maintain an overview of the learning progress of the entire class. For the assessment of individual students you can also access the detailed view of individual students.

Print worksheets

You prefer to print your tests or worksheets? No problem! By optimizing the slips of paper, questions can now be printed out even easier!

GDPR-compliant

eSquirrel pays close attention to compliance with the GDPR so that the platform can be used in class without hesitation.

Use on all devices

eSquirrel is available on all end devices: This means that you and your students can use the eSquirrel courses on smartphones (also on old devices), tablets and on the web.

100% ad-free

You and your students learn and practice with our digital content completely undisturbed, because eSquirrel is 100% ad-free!

Learning Analytics

Understand at a glance what your class can already do. Evaluations of particularly difficult and easy questions help you to optimally prepare for the lessons.

Create quizzes

Create a quiz from any number of questions from any number of quests – and set the time and period. Hourly repetitions have never been done so quickly!

Digital hand raising

Students can ask questions about quests. You can respond to them directly in class (or by email).

And that's not all! Further features can be found on:

Features

Für SchülerInnen

Solve tasks

Students learn in 8 different question formats with the support of images, audio files, algebra or even explanatory video links.

Collect acorns

For each task solved, each student receives 1-3 acorns. These are cut in half on their second try. On their third try they won't get a any acorns. Students can see from the amount of their acheived acorns how well they have mastered a quest.

Complete quests

To successfully complete a learning unit – a so-called quest – every question must be answered correctly once.

Continue playing levels

By repeating quests at different times, students strengthen their skills and gain confidence in their abilities.

Do homework digitally

Students receive a notification on their smartphone when they have to complete a quest as a homework assignment.

Own learning progress

In the statistics, students know exactly how far they have already come in the course and what they still have to do or repeat.

Track the Leaderboard

Students can compare themselves with the best 33% of the class and see their own place.

Available offline

After a single download, our courses are available to your students offline on their devices. So they won't need any additional data volume or WiFi at school to use eSquirrel.

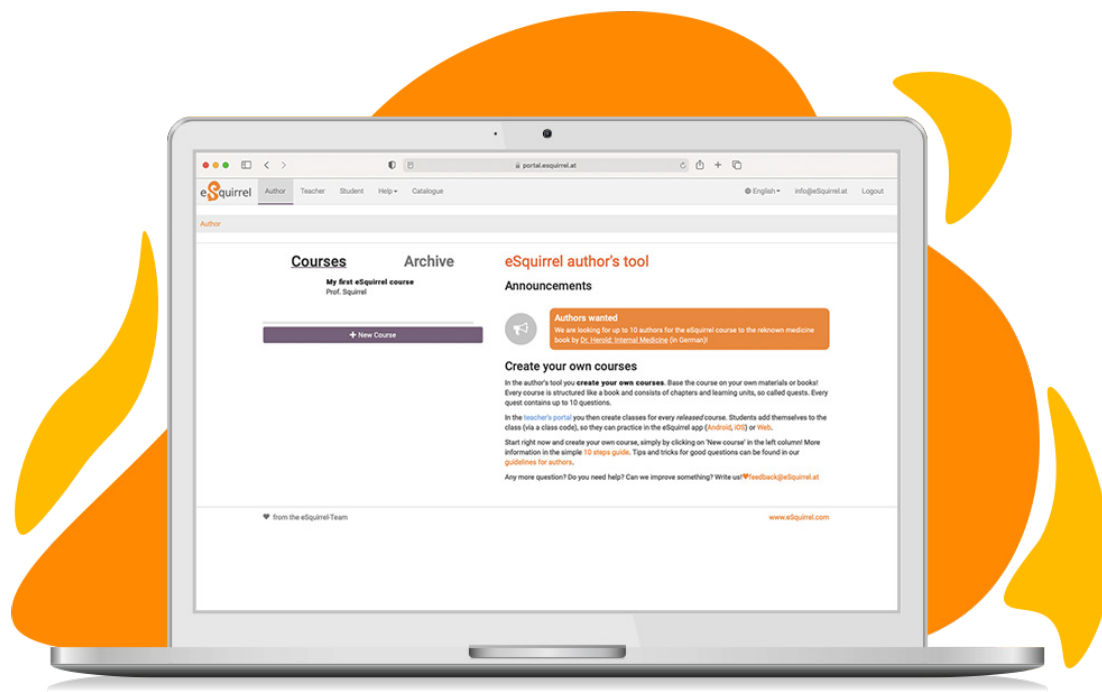

E-Book always with them

With eSquirrel, students always have their textbook with them. Questions can be directly linked to the right place in the book.

And that's not all! Further features can be found on:

Completely free Create your own digital courses

How to create your own content with eSquirrel free of charge & without ads

With the author's tool from eSquirrel you can create your own content on a mobile basis. You and your students can use all features in the app as well as in the portal **completely free of charge**. You can write the course together with 4 other authors. From the created eSquirrel courses you can create classes in the teacher portal and use them as many times as you want.

Read more about our author's license and receive accompanying instructions on our website:
